THE OMG FOOD PHILOSOPHY

The goal has always been the same - get people to say OMG when we hand over the food. It needs to look great and taste amazing. We use our local butcher for high-quality meat and believe that the most humble food can be elevated with great ingredients, attention to detail and passion.

We simply can't include all of our dishes on this menu so we've kept it to our most popular options. If you like the look of OMG but haven't found what you're looking for, let us know and we'll share some other options.
